

BLM GROUP

LT5.10 Technical information

Laser

Source	Fiber 1-2 kW
--------	--------------

Cutting head	BLM GROUP 2D Tube Cutter
--------------	--------------------------

Loading

Bundle loading	Fully automatic
----------------	-----------------

Minimum loading length	3.2 m
------------------------	-------

Minimum unloading length	6.5 – 8.5 m
--------------------------	-------------

Bundle loading capacity	4,000 kg
-------------------------	----------

Unloader

Three programmable positions, rear conveyor belt, and motorized front and rear collection tables.

Unloading length	3.5 - 4.5 - 6.5
------------------	-----------------

Power Consumption

Average drawn power (O2)	10 kW (O2 with 1 kW laser source)
--------------------------	-----------------------------------

Average absorbed power (N2)	17 kW (N2 with 1 kW laser source)
-----------------------------	-----------------------------------

Standard machine

Base configuration	6.5 loading and 3.5 m unloading
--------------------	---------------------------------
