

Nedo mEsstronic Easy

Nedo mEsstronic Easy is an easy-to-use electronic measuring tool for the skilled tradesman. Simply place the mEsstronic Easy in position, pull out the extending sections and read off the measurement from the digital display.

The zero function allows to set reference points for relative measurements.

Deviations from the reference points are calculated automatically.

The hold button permits the measured value to be retained in the display. In this way, a measurement can be taken in an inaccessible place and then be read off at a more convenient time. The two models with maximum ranges of 3 m and 5 m cover all typical measuring tasks entailed in building operations.

Features:

- Measuring ranges: 3 m or 5 m
- Reliable Nedo digital technology
- Mechanical components based on proven mEssfix technology
- Power supply: 4 x 1.5 V batteries type (AA) or 4 x 1.2 V rechargeable batteries
- Operation duration: approx. 200 hours (continuous use)
- Automatic switch-off after 3 minutes of non-use
- Zero function: sets reference points for relative measurements
- Hold function: permits use in almost inaccessible places and read-off when convenient

Measuring Jaws for mEsstronic and mEsstronic Easy

Clip-on measuring jaws for easy and convenient measurements of external dimensions.

Ref.-No. 583 500

Nedo mEsstronic Easy

Ref.-No.	Measuring range	Accuracy	Length retracted	Graduation	Resolution	Weight	Incl. case	Incl. bubble
583 121	0,70 m to 3.00 m	± 1 mm	0.70 m	mm	1 mm	1.3 kg	no	yes
585 121	1,04 m to 5.00 m	± 1 mm	1.04 m	mm	1 mm	2.1 kg	no	no

Cases for Nedo mEsstronic Easy
